

Mentored Learning

Meet training objectives and increase productivity through a flexible, focused and fast approach to learning

Quality training is imperative to the success of any organization, but extended time away from the office can take employees out of corporate momentum, especially when they're needed most. New Horizons Mentored Learning was developed by industry professionals to provide a method of training that combines the least amount of time away from the office, with the most time dedicated to learning what they need to know.

Mentored Learning Benefits You:

- Flexible scheduling
- Learn at your own pace
- Hands-on labs
- Measurable Progress
- One-on-One Instructor Time
- Increased Retention
- Targeted Training
- Greater Course Availability
- Faster training results
- Lower training costs

- Flexible, focused and fast training - students learn what they want, when they want it - allowing students to put to use what they learn quicker
- Custom training development plans
- Unlimited courses, exam exercises and tests,
- Pre-and post-assessments help monitor progress and gauge return on investment
- Purchase training by the session or on an unlimited basis
- More than preparing students for exams, New Horizons prepares students with real-world solutions

Classroom Learning

Real concentration in a hands-on learning environment

The Classroom Learning Approach

As the foundation of our Integrated Learning methodology, the classroom experience has become a more enriching, dynamic and valuable learning method for students. Classroom Learning students have their own networked environments, which enable instructors to manage hands-on lab demonstrations and exercises that mirror the professional environment. Additionally, Classroom Learning has been enhanced to include Web-based resources, such as tutorials and simulations, during and after class. After each course, a post-assessment is completed to help gauge return on investment and productivity enhancements. Additionally, New Horizons offers more courses, at more times, in more locations than any other computer training company. Businesses and individuals can choose from hundreds of desktop applications and technical training courses in our learning centers worldwide.

Classroom Learning Benefits for the Students:

- Structured classes, state-of-the-art equipment and controlled facilities provide real concentration in a great learning environment
- Hands-on instructor-led training provides immediate solutions tailored to help students fill real-world business projects
- Access to the Student Collaboration Centers provides continuous classroom discussion and learning resources

Classroom Learning Benefits for the Corporation:

- Employees acquire more skills, beyond those needed to pass exams, which help companies save time, money and gain a competitive edge
- Pre-and post-assessments help monitor progress and gauge return on investment
- Certified classroom instructors are constantly tested and re-evaluated to ensure quality and delivery of training
- Hundreds of desktop applications and technical training courses offered at hundreds of locations worldwide

Online ANYTIME Learning

The convenient, affordable, self-paced training solution from New Horizons.

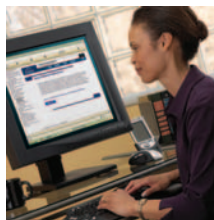

Fit computer training into your busy schedule, whether you are at the office, at home or on the road with Online ANYTIME Web-based and computer-based training. Choose from hundreds of courses covering the same subjects as our world-renowned instructor-led training.

Anytime, anywhere learning — tailored just for you.

Training is available 24 hours a day, 7 days a week. The multimedia courses are completely interactive, allowing you to learn the technology step-by-step, with all the resources you need right on your desktop.

With so many support features, you are sure to succeed:

- 24 x 7 access to our complete online technical library of the latest reference books. Our library offers complete versions of these books with the ability to search and bookmark saving you hundreds of dollars;
- Our Student Community offers 24 x 7 interaction with your peers in subject areas of your interest. Get the answers to course-specific questions whenever you want;
- Skills assessments help you design your own learning path allowing you to focus only on concepts and lessons where you need improvement;
- Courses and libraries are automatically updated offering you the most recent courses as they are released.

Track progress and results.

When you have multiple users, our training administration features track progress and results. Students can monitor transcripts; training managers can ensure that students are using Online ANYTIME most effectively.

The latest and greatest courses.

Choose from hundreds of topics with up-to-the-minute course content, including:

- Microsoft Office Pack
- Office Productivity
- MCSE Certification
- WorkPlace Safety
- Design & Media
- Programming & Web Development

Online LIVE Learning

Increase the effectiveness of training through live interaction

Looking for a hands-on learning experience without leaving your desk? We realize how important time and money is to you, so we have designed training programs that have minimal impact on your schedule, save you time away from the office, and eliminate the expenses associated with travel.

The Online LIVE Learning Approach

Online LIVE is an integrated learning experience, comprised of three learning levels to meet the needs of the individual student. Each level uses Internet technology to provide synchronous lessons between an instructor and a group of students. Although separated by geography, instructors and students share an interactive experience, including active discussions, simultaneous document viewing and application sharing, and the ability to form breakout groups in virtual rooms for team meetings.

Online LIVE Learning Benefits for the Student:

- Focus on the knowledge and skills needed to perform required tasks
- Receive ample opportunity to reinforce learning achievements through active learning
- Receive ongoing evaluation and feedback on performance
- Participate in chats with instructors and fellow students
- Access to the Student Collaboration Centers for discussion groups, tips, and various resources, such as tutorials and simulations
- Ability to playback any class for review, or absence, through archived recordings of Online LIVE classes

Online LIVE Learning Benefits for the Corporation:

- Maximize productivity and budgets by reducing training travel, facilities, and telecommunication costs
- Pre-and post-assessments help monitor progress and gauge return on investment
- More than preparing students for exams, New Horizons prepares students with real-world solutions
